

History

We will be finding out about where Egypt is, its climate and the importance of the River Nile to the people that live there. Our topic then has a historical focus as we discover about the lives of the ancient Egyptians. We will find out about; how they survived in a hot climate, the roles and responsibilities of the people, their religious beliefs; and the mummification process! We will also learn about the important discovery of King Tutankhamun.

Art

Typography and Maps
We will explore how we can create typography through drawing and design, and use our skills to create personal and highly visual maps.

PE

On Mondays we will be doing handball skills outdoors if dry, in the village hall if wet.
On Thursdays the children will be swimming at Stratford Park pool starting on 18th September.

Relationships and Health Education

During the term the children will learn about 'families and people who care for me'. We will discuss different types of relationships and different family structures.

Owl Class Walk Like an Egyptian Term 1 2025

DT

Digital World - Monitoring devices
This term we will be applying our computing skills to program a Micro:bit animal monitor and use 3D CAD tools in Tinkercad to design a case, housing or stand.

English

This term we will be writing information texts about the Egyptians and instructions on how to make a mummy. We will write a diary entry and newspaper report on the discovery of Tutankhamun's tomb.
GPS (Grammar, Punctuation and Spelling) and guided reading also fulfil an important role in English and these take place on a regular basis.

Maths

We will begin the term with some work on place value, learning about numbers up to 10 000 000. We will then complete a number unit on addition, subtraction, multiplication and division. We will learn formal written methods for these.
The children will be tested on their times tables on a Friday, with results coming home so you can check on their progress.

R.E

We will be exploring what Christians learn from the creation story and how this compares with scientific ideas.

Computing

We will learn about computer systems and how search engines are used to find out information.

Music

We will be listening to rock anthems and taking part in musical activities based on them.

Science - Earth and Space

The children will learn about the movement of the Earth, and other planets, relative to the Sun in the solar system. They will also use the idea of the Earth's rotation to explain day and night and the apparent movement of the sun across the sky.
