

Computing

We will use 'scratch' to write a programme using selection. This will later develop into writing a quiz.

Science

This term we will learn about forces. The children will understand that unsupported objects fall towards the Earth because of the force of gravity acting between the Earth and the falling object. They will identify the effects of air resistance, water resistance and friction that act between moving surfaces. They will recognise that some mechanisms including levers, pulleys and gears allow a smaller force to have a greater effect.

Music

Reflect, rewind and replay. In this unit the children will revisit all of the songs that they have learnt this year.

Maths

We will be completing our unit on shape - focusing on polygons, circles and 3D shapes. We will then complete short units on ratio, algebra and statistics. Our final unit of the term focusses on converting units of measure.

Owl Class Term 6 Grossbusters!

English

This term we will begin with a performance poetry unit followed by writing setting and character descriptions. We will then be writing formal and informal letters. Lastly our focus turns to play scripts as we concentrate on our end of year production.

Geography

This term we will look at OS maps and learn how to plan and follow a local route. We will also be comparing maps with aerial photographs on different scales.

PE

We will be playing rounders on Mondays and practice athletics on a Thursday in preparation for sports day.

PSHCE

We will be learning about personal responsibility and growing up. During this important topic we will focus on personal hygiene and the importance of an active lifestyle. The Y6 children will learn about what changes happen as we become adults and the stages of the human life cycle.

Art - Fashion Design

We will explore contemporary fashion designers and create our own 2D or 3D fashion design working to a brief.

RE

We will be exploring how faith helps people when life gets hard. We will find out about the views of different faiths to support our understanding.

DT - Cooking and Nutrition

The children will learn how to cook a simple bolognese recipe and adapt it. They will learn about nutrition and cooking skills in the process.
