

Green Fingers

Summer Term 2

Squirrel Class

Maths

EYFS- we will be exploring sharing and grouping as well as looking at patterns, positional language and mapping.

Year 1- we will be learning to recognise coins and notes before exploring time and beginning to learn to tell the time.

Year 2 - we will continue our statistics work exploring tally charts, tables and pictograms before exploring positional language and describing positions and turns.

Geography

We will be further developing our fieldwork skills to answer the question:

Are there enough plants to encourage wildlife at our school?

English

We will be writing informational fact files about bees. We will learn how to use dictionaries to find rich and purposeful language to support our writing.

Computing

This term we will be learning about algorithms and coding and creating our own animations!

PE

On Mondays we will continue to develop our basic skills running, jumping, throwing and catching.

On Thursdays we will participate in team games and learn simple tactics for attacking and defending.

RE

This term we will consider how we should care for the world and others and why it matters.

Music

We will listen to both traditional and contemporary classical music. We will start to explore composition and make our own compositions.

Science

In science we will continue exploring materials with a particular focus on how we can change the properties of some solid materials by bending, twisting, squashing and stretching.

RHE

Our focus this term is what happens to our body as we grow up.

Art

We will be looking at how artists have been inspired by the flora and fauna around them and creating our own art.
